My Darling

Sending all love and congratulations on this special day in your and our lives. It is an important event, a significant milestone and a great achievement. To be here together and healthy and happy is the greatest possible event. Something huge to celebrate and be thankful for. Thank you for loving me and for letting me share your life, the adventure that is our life together. I love you from the very bottom of my heart and will love you for the rest of our lives, and maybe, who knows, beyond.

The greatest event in my life is you.

Congratulations my darling .

Your very own.

Derek
